Index to volume 34, 1977

A

Absence, attributed to sickness, effect of twelve-hour shift working on: notes and miscellanea 148

ADAMS, W. G. F., *see* LEE, F. I. *et al.*

δ-Aminolevulinic acid dehydratase activity, effect of zinc and pH on behaviour, lead exposure, baboons, 110

——— ——— dehydratase, effect of metal ions on activity, 32

ANDERSEN, H. C., ANDERSEN, I., and SOLGAARD, J.: Nasal cancers, symptoms and upper airway function in woodworkers, 201

ANDERSEN, I., *see* ANDERSEN, H. C. *et al.*

ANDERSON, I. K., *see* CROSBIE, W. A. *et al.*

Asbestos exposure, mortality, insulation workers, Belfast, (1940-75), 174

——— fibres, antagonistic activity of poly (4-vinylpyridine-N-oxide) to the inhibition of viral interferon induction by, 119

——— mortality study among workers, English factory, 169

——— and silica, occupational exposure, 200 kV xeroradiography, 281

Asthma, caused by occupational use of formalin, 11

Atomic fluorescence method for cadmium blood analysis, application to industry, 106

Autoworkers, heavy metal pollution, I. Lead, 208, II. Cadmium, chromium, copper, manganese, and nickel, 216

Contents

No. 1 *FEBRUARY 1977* PAGE

Mortality experience of workers exposed to vinyl chloride monomer in the manufacture of polyvinyl chloride in Great Britain
A. J. Fox and P. F. Collier .. 1

Occupational formalin asthma
D. J. Hendrick and D. J. Lane .. 11

Physical characteristics and ventilatory function of 404 commercial divers working in the North Sea
W. A. Crosbie, M. B. Clarke, R. A. F. Cox, N. K. I. McIver, I. K. Anderson, H. A. Evans, G. C. Liddle, J. L. Cowan, C. H. Brookings, and D. G. Watson .. 19

Urinary mercury excretion and proteinuria in pathology laboratory staff
W. K. Stewart, H. A. Guirgis, J. Sanderson, and W. Taylor .. 26

The effect of metal ions on the activity of δ-aminolevulinic acid dehydratase
J. Thompson, D. D. Jones, and W. H. Beasley .. 32

Retention, distribution, and excretion of lead by the rat after intravenous injection
A. Morgan, A. Holmes, and J. C. Evans .. 37

Trichloroethylene exposure. Simulation of uptake, excretion, and metabolism using a mathematical model
J. G. Fernández, P. O. Droz, B. E. Humbert, and J. R. Caperos .. 43

A pharmacokinetic model to study the excretion of trichloroethylene and its metabolites after an inhalation exposure
A. Sato, T. Nakajima, Y. Fujiwara, and N. Murayama .. 56

Book reviews .. 64

Notices .. 69

Information section .. 70

No. 2 *MAY 1977*

Radiological assessment of small pneumoconiotic opacities
F. D. K. Liddell .. 85

Energy dispersive *x*-ray analysis in the study of pneumoconiosis
A. Funahashi, K. A. Siegesmund, R. F. Dragen, and K. Pintar .. 95

Cancers of the lung and nasal sinuses in nickel workers: a reassessment of the period of risk
R. Doll, J. D. Mathews, and L. G. Morgan .. 102

Application of blood cadmium analysis to industry using an atomic fluorescence method
G. S. Fell, J. M. Ottaway, and F. E. R. Hussein .. 106

The effect of zinc and pH on the behaviour of δ-aminolevulinic acid dehydratase activity in baboons exposed to lead
A. C. Cantrell, T. A. Kilroe-Smith, M. M. Simões, and E. A. Border .. 110

Occupational exposure to manganese
M. Šarić, A. Markićević, and O. Hrustić .. 114

Antagonistic activity of poly (4-vinylpyridine-N-oxide) to the inhibition of viral interferon induction by asbestos fibres
N. Hahon, J. A. Booth, and H. L. Eckert .. 119

Acceptable levels for the breathing resistance of respiratory apparatus: results for men over the age of 45
R. G. Love, D. C. F. Muir, K. F. Sweetland, R. A. Bentley, and O. G. Griffin .. 126

Effects of fluorocarbon propellants on respiratory flow and ECG
F. Valić, Zdenka Skurić, Ž. Bantić, M. Rudar, and M. Hećej .. 130

Efficiency and daily work effort in sugar cane cutters
G. B. Spurr, M. Barac-Nieto, and M. G. Maksud .. 137

Screening for liver disease in vinyl chloride workers
F. I. Lee, D. S. Harry, W. G. Adams, and M. Litchfield .. 142

Notes and miscellanea

The effect of twelve-hour shift working on absence attributed to sickness
A. Ward Gardner and B. D. Dagnall .. 148

Book reviews .. 151

Notices .. 154

Information section .. 155

Contents

No. 3 *AUGUST 1977*

PAGE

A mortality study among workers in an English asbestos factory
J. Peto, R. Doll, S. V. Howard, L. J. Kinlen, and H. C. Lewinsohn 169
Insulation workers in Belfast. A further study of mortality due to asbestos exposure (1940-75)
P. C. Elmes and M. J. C. Simpson 174
An investigation into the health of kapok workers
C. G. Uragoda 181
Farmer's lung in a group of Scottish dairy farms
V. E. Wardrop, W. Blyth, and I. W. B. Grant 186
Chronic pulmonary function loss from exposure to toluene diisocyanate
D. H. Wegman, J. M. Peters, L. Pagnotto, and L. J. Fine 196
Nasal cancers, symptoms and upper airway function in woodworkers
H. C. Andersen, I. Andersen, and J. Solgaard 201
Heavy metal pollution among autoworkers. I. Lead
J. Clausen and S. C. Rastogi 208
Heavy metal pollution among autoworkers. II. Cadmium, chromium, copper, manganese and nickel
J. Clausen and S. C. Rastogi 216
Cadmium metabolism in man
H. Welinder, S. Skerfving, and O. Henriksen 221
Simultaneous determination of toluene and xylene metabolites in urine by gas chromatography
J. R. Caperos and J. G. Fernández 229
Book reviews 234
Notices 240
Information section 241

No. 4 *NOVEMBER 1977*

Radiation-induced chromosome damage in human lymphocytes
D. C. Lloyd and G. W. Dolphin 261
Some ethical problems of hazardous substances in the working environment
W. R. Lee 274
200 kV xeroradiography in occupational exposure to silica and asbestos
R. Glyn Thomas and G. K. Sluis-Cremer 281
A mortality study of coke oven workers in two South Wales integrated steelworks
G. M. Davies 291
Lead poisoning in a group of demolition workers
B. C. Campbell and A. W. Baird 298
Measurement by gas chromatography of urinary hippuric acid and methylhippuric acid as indices of toluene and xylene exposure
S. Kira 305
Quantitative determination of hippuric and m-methylhippuric acids in urine by high-speed liquid chromatography
H. Matsui, M. Kasao, and S. Imamura 310
The neurotoxicity of toluene: EEG changes in rats exposed to various concentrations
Y. Takeuchi and N. Hisanaga 314
Book reviews 325
Notices 328
Information section 329
Index 344
